## Introduction

### Index Objective

The VettaFi CCAB Progressive Aboriginal Relations™ Index is a modified Market Cap weighted Index of companies that participate in CCAB's Progressive Aboriginal Relations™ (PAR) program. PAR is a recognition and certification program that confirms organizational performance on Aboriginal relations and signals to the Aboriginal community that these organizations are good business partners, good places to work, and are committed to prosperity for Aboriginal communities. Companies that fall under PAR's certification criteria and are farther along PAR's committed criteria are given higher weighting multipliers in the index.

### Highlights

The Canadian Council for Aboriginal Business awards Progressive Aboriginal Relations™ ("PAR") designation to companies with Indigenous relations strategies. Companies progress through four certification levels:

- PAR Committed companies are in the beginning stages of tracking and managing their Indigenous relations strategies. Committed companies have submitted a report for one year's worth of company activities and intend to undergo external verification of their performance in the future.
- PAR Bronze companies are beginning a journey, developing the goals and action plans that position them to work with the Indigenous community.
- PAR Silver companies have had their business case proved through their Indigenous relations; business partnerships are in place; Indigenous people are adding value at their workplace; and they are supporting sustainability through investment in communities and people.
- PAR Gold companies demonstrate sustained leadership in Indigenous relations and their commitment to working with Indigenous businesses and communities has built the business case that other companies aspire to achieve. Their introduction of innovative programs and engagement of Indigenous people have made an enduring impact on Indigenous businesses and communities and demonstrate best practice for those companies introducing Indigenous relations to their business strategy or seeking to improve year over year.

(Please see [PAR Companies](#) for additional details.)

## Eligibility Criteria and Index Construction

### Universe

Companies with Progressive Aboriginal Relations™ (“PAR”) certification.

### Constituent Selection

All companies in the Universe that meet the following criteria are selected:

- A minimum market cap of 100 million CAD.
- A 90-day ADTV of 1 million CAD.
- Pass Controversial Weapons screening.

Companies that are involved in Controversial Weapons as detailed are excluded:

- Companies involved in the production development or maintenance of Anti- personnel Mines, Biological or Chemical weapons, Cluster munitions, Depleted uranium, Nuclear Weapons, or any other weapon that violate humanitarian principles through normal use.
- Companies that produce or develop key and dedicated components for controversial weapons.

### Constituent Weightings

Companies are designated as Certified or Committed:

- Certified companies: Have PAR Gold, PAR Silver, or PAR Bronze designation.
- Committed companies: Have PAR committed designation.

Constituents are weighted by the product of their float market cap and PAR Involvement Multiplier.

PAR Involvement Multiplier:

- Certified companies: multiplier of 1
- Committed companies: multiplier of 0.5

Weighting formula and capping:

$$W_{i,t} = (\text{fmcap}_{i,t} * \text{multiplier}_{i,t}) / (\sum \text{fmcap}_{i,t} * \text{multiplier}_{i,t})$$

where:

$W_{i,t}$  = weight of stock i at the close of day t

$\text{fmcap}_{i,t}$  = float market cap of stock i at the close of day t

$\text{multiplier}_{i,t}$  = PAR Involvement Multiplier of stock i at the close of day t

Certified companies are capped at 10% and Committed companies at 5%. Excess weight is distributed proportionally to uncapped securities within the index.

## Index Maintenance

### Rebalancing

The Indexes are rebalanced on the “Rebalance Date” and additionally reconstituted on the “Reconstitution Date”.

Pricing used in share weights used for reconstitutions are as of the “Record Date”.

Share weights for the rebalanced Indexes are computed as of the “Record Date”.

Changes to the Indexes related to the rebalances are as of the “Rebalance Date”.

Additions are only made on reconstitution dates.
