Performance data includes back-test results prior to January 21, 2022

A benchmark to track global companies with a primary business focus on the online retail industry.

The Case for Online Retail

- Growing Global Opportunity** - While growth has slowed for the traditional brick and mortar retailers, online retail continues to exhibit strong growth characteristics, gain market share, and expand globally.
- Expanding Internet and Mobile Penetration** - While more than 66% of the globe currently has access to the Internet, that opportunity set is rapidly growing thanks to smart mobile devices which enable consumers to shop anywhere and anytime online.¹
- Technological Advancement** - Future technological innovations such as seamless and secure methods of electronic payment, voice assisted shopping, virtual and augmented reality, and artificial intelligence informed personalization, will further drive market expansion and growth.
