

# Server Error in '/' Application.

*Divide by zero error encountered.  
The statement has been terminated.*

**Description:** An unhandled exception occurred during the execution of the current web request. Please review the stack trace for more information about the error and where it originated in the code.

**Exception Details:** System.Data.SqlClient.SqlException: Divide by zero error encountered.  
The statement has been terminated.

## Source Error:

An unhandled exception was generated during the execution of the current web request. Information regarding the origin and location of the exception can be identified using the exception stack trace below.

## Stack Trace:
