An index designed to provide exposure to global, publicly traded companies and royalty funds with a core business interest in the global music industry.

The Case for Investing in the Global Music Industry

- 1. Convenient Access to Every Aspect of the Global Music Industry** - The index provides pure-play exposure to the entire music industry ecosystem including: streaming, content and distribution, live music events and ticketing, satellite and broadcast radio, and equipment and technology.
- 2. Music Industry Represents a Growing Global Opportunity** - The global music industry is expected to grow at a double-digit pace fueled by rising global paid streaming penetration, new ways to monetize music publishing and content, and the resurgence of live music events post the pandemic.¹
- 3. New Age of Music Content** - Digitization, new technologies like artificial intelligence (AI), and social media and streaming platforms have increased the availability of music, while providing artists new ways to connect and engage with their audiences and monetize intellectual property.²
